

Kampeska goes 36 inches over full mark

July 27, 1993

Lake Kampeska's elevation tied a seven-year-old mark at 36 inches over full. The current level is just six and one-half inches away from Kampeska's all time record of 42.5 inches, set back in 1943.

Since Saturday Lake Kampeska has come up 10 inches and has taken in 1.3 billion gallons of water.

Listed below are Kampeska's nine highest elevations since record keeping began. Prior to 1984 the lake was measured at a different full level. All figures used by the Public Opinion have been adjusted properly so that true comparisons are used.

RECORD HIGHS

<u>YEAR</u>	<u>INCHES ABOVE FULL</u>
1943.....	42.5
1969.....	37.5
1952.....	36.87
1986.....	36
1993.....	36
1979.....	30
1937.....	22.37
1972.....	21.02
1939.....	17.62
